

# Gambling Rehabilitation Program Gambling Helpline Data Bulletin April - June 2011

This quarterly bulletin aims to better inform our understanding of the impact of problem gambling on individuals and to enhance service responses.

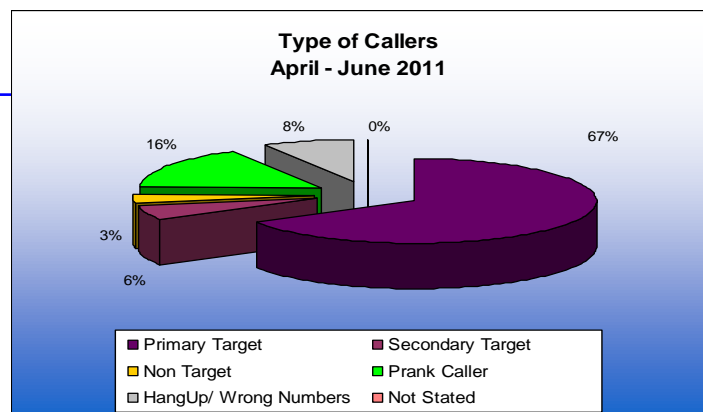

The Gambling Helpline, which is funded through the Gamblers Rehabilitation Fund, is a 24 hour 7 day a week telephone information, counselling and referral service for South Australians who are adversely affected by problem gambling behaviour.

The Gambling Helpline is intended as an accessible contact point for anyone needing assistance and/or information related to problem gambling. The Gambling Helpline acts as a referral point for a diverse range of services that may be required or requested by callers.

## Calls to the Helpline

Between 1 April and 30 June 2011, the Gambling Helpline received a total of 320 calls.

- There were **213 Primary Target Group** callers,
- 18 Secondary Target Group callers, and
- 89 Non Target Group callers.

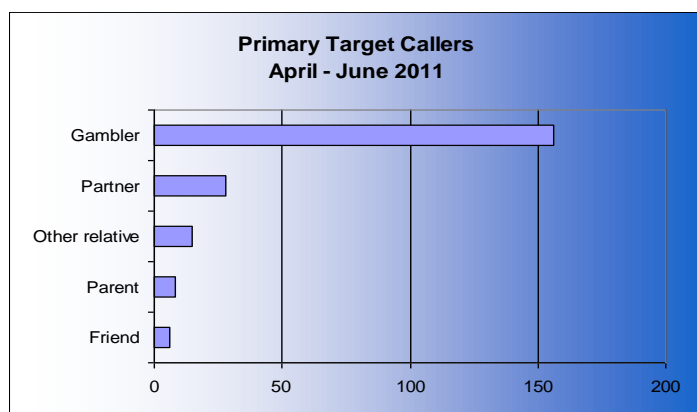

The **Primary Target Group** callers are gamblers concerned about their gambling, family members or significant others affected in some way by the gambler's behaviour and who require assistance or information. They may include the gambler, friend, parent, partner or other relative.

**Secondary Target Group** callers include members of the community wanting information about problem gambling. These may include calls received from professional advisors, counsellors, students, a work colleague or other members of the community.

Calls received from the **Non Target Group** include members of the community wanting information about gambling activities, which are not related to personal gambling issues.

The Non Target Group includes calls from Gaming rooms/venues or non-gambling referrals. Other calls received on the Gambling Helpline include prank calls, and hang-ups or wrong numbers.

## Duration of Calls

The average time per call for all target groups is not available due to the non-reporting of duration for Non Target Group callers.

Type of Caller	Total Duration of Calls (mins)	Average Duration per Call (mins)
Primary Target Group	3 339	15.68
Secondary Target Group	95	5.28
Total (Primary + Secondary)	3434	14.86

## The Time of Calls

Calls are received from all target groups both during the week and on weekends. The calls are spread fairly evenly across each day, with slightly fewer calls being received on Saturdays (7%) and Sundays (9%). During the week, the highest percentages of calls were received on Fridays (19%).

During the day, calls are monitored between Midnight and 9am, 9am and noon, noon and 5pm, and 5pm and midnight. More calls are received between noon - 5pm (34%), with the least number of calls made between midnight - 9am(14%).

## Location of the Caller

Calls from the Primary Target Group are received from both Metropolitan and Country areas.

Calls received from the Metropolitan areas make up 70% of calls, and those from the Country areas make up 17% of calls. 14% of callers did not state their location.
