

INTERNET GAMBLING IN SA

In 2018, 13% of South Australian residents gambled on at least one gambling product online.

This is a significant increase since 2012, when only 5% of SA residents had gambled online.

Proportion of players who had placed an online bet for the following activities

Betting on fantasy sports or sporting events had the highest association with gambling online, with about three-quarters of players reporting they had placed a bet on the activities online.

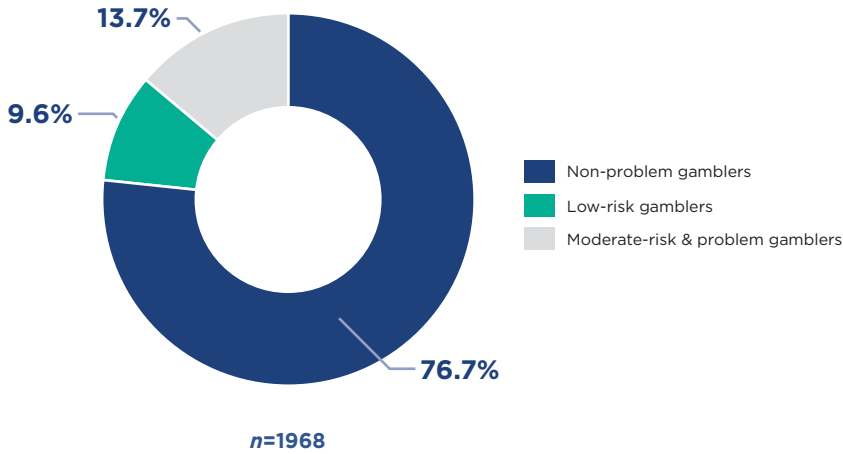

Gamblers who bet on sporting events, horse, harness and greyhound races or purchased lottery products online typically bet more frequently than those who did not bet online.
